

**AMENDED CLAIM—MARKED UP VERSION**

A “marked up” version of the rewritten claims pursuant to 35 U.S.C. § 1.121 (c)(1)(ii), as amended effective November 29, 2000, is set forth below.

- 1        23. (Amended) The computing system of claim 22 [B70], wherein:  
2              the first mode includes separating a plurality of information in each transaction into two  
3                      messages and transmitting the two messages in parallel; and  
4              the second mode includes transmitting the two messages in series on a single half of the  
5                      signal path.
